

When you want to eat, what's your pleasure?

Fine food can be one of life's great pleasures. The sensory experience it provides can elevate your whole outlook. So, are you in the mood for something spicy? Maybe the comfort food of home?

Whatever your mood, our new cuisine is causing quite a stir.

We've both improved and varied the cuisine in World Business Class. Larger portions and multiple entrée choices, including new Asian meal options on trans-Pacific flights, elevate your culinary experience on board. We've also added our new "Sky Break" baskets; offering fresh fruit, cheese, crackers and other light snacks that are ready when you are. Knowing that you have many delicious options available to you from takeoff to landing is definitely something that will help you feel more comfortable.

Your comfort, your way, around the world

Along with our global travel partners, we can take you to 750 cities in 120 countries on six continents. We want to be your first choice in travel. Northwest Airlines and KLM Royal Dutch Airlines are pleased to provide the comfort, extra personal space and other improvements in World Business Class on intercontinental routes*. The next time you make international travel plans, choose Northwest and KLM World Business Class for Comfort on a Higher Plane.

* World Business Class is available on intercontinental flights using KLM 747 or MD-11 aircraft or Northwest 747 or DC-10 aircraft.

Please note: The World Business Class seat space and recline and audio improvements will be complete by 5/31/01. The contents of this brochure were accurate as of 8/31/00 and may be subject to change.

COMFORT ON
A HIGHER PLANE

A new World Business ClassSM

What makes you comfortable?

Some people like to stretch out while others prefer to curl up. How do you relax? No two people answer exactly alike. But, no matter their style, our customers have indicated that personal space and comfort are the most important factors to making their trips productive and enjoyable.

Experience more.

Because YOU define comfort.

Northwest Airlines® and KLM Royal Dutch Airlines are proud to introduce the new World Business ClassSM. The improvements you'll discover when you fly our intercontinental routes are designed to meet your needs for personal space and comfort.

We started by dramatically increasing the amount of personal space you get in World Business Class. Twelve inches of space have been added between each seat row, increasing legroom by 55 percent. In addition, the seat recline has been increased to a full 150 degrees.

Why don't you take a break?

Maybe what you need is a little time-out. Take a moment to listen to music, watch a movie or enjoy some light entertainment.

Like to channel surf at 35,000 feet? Go ahead. Be our guest.

In the new World Business Class you'll enjoy the exhilaration of the performance. We're pleased to introduce state-of-the-art digital audio and next-generation headsets to complement the wide array of music and video choices with sound that's crisp, clear and distortion-free. And with six channels of video and up to 14 channels of audio, there's enough variety to suit just about every taste or frame of mind.
